

Urine Strips

HTI's Urine RS reagent strips consist of a plastic strip affixed with reagent papers and a calibration pad. This feature facilitates measurement of multiple urine constituents and use for everyday diagnosis and group examinations. The calibration pad, which is not implemented with reagents, allows instrumental correction interference from natural color of urine automatically and obtains accurate results.

Different models and configurations with different parameters are manufactured for specific instruments.

The strips must be stored in a dry place at a temperature between 2°–30°C. Don't store the strips in a refrigerator and keep away from direct sunlight.

Quality Products for Healthcare Professionals

UrineRS H10, HTI

Urine strips for CL-50, CL-500 for the components qualitative and semi-quantitative analysis.

Catalog number	HT-UR-9000
10 Parameters	Leukocyte, Ketone, Nitrite, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, Blood, pH
Packaging	100 pcs/ package

UrineRS H11, HTI

Urine strips for CL-50, CL-500 for the components qualitative and semi-quantitative analysis.

Catalog number	HT-UR-10000
11 Parameters	Leukocyte, Ketone, Nitrite, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, Blood, pH, Ascorbic Acid
Packaging	100 pcs/ package

UrineRS H13, HTI

Urine strips for CL-50, CL-500 for the components qualitative and semi-quantitative analysis.

Catalog number	HT-UR-11000
13 Parameters	Leukocyte, Ketone, Nitrite, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, Blood, pH, Creatinine, Calcium, Microalbumin
Packaging	100 pcs/ package

UrineRS A10, HTI

Urine strips for Clinitek Advantus, Status, 50, 100, 200, 500, Tecu Uritek TC-101, TC-151, TC-701, TC-720, Roki Express for the components qualitative and semi-quantitative analysis.

Catalog number	HT-UR-3000
10 Parameters	Leukocyte, Ketone, Nitrite, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, Blood, pH
Packaging	100 pcs/ package

UrineRS E10, HTI

Urine strips for Clinitek 50, Clinitek 100, Clinitek 200, Clinitek Advantus, Clinitek Status, Clinitek Status Plus for the components qualitative and semi-quantitative analysis.

Catalog number	HT-UR-4000
10 Parameters	Leukocyte, Ketone, Nitrite, Urobilinogen, Bilirubin, Protein, Glucose, Specific Gravity, Blood, pH
Packaging	100 pcs/ package

Urinalysis Controls, HTI

Urine controls for HTI CL-50, CL-500, Siemens, Urit, Arkray, Roche, Dirui

HT-CHEM-URS-CTL-24	3 x 8 ml (1N x 1P x 1PAs)
HT-CHEM-URS-CTL-16	2 x 8 ml (1N x 1P)
HT-CHEM-URS-CTL-96	6 x 8 ml (1N), 6 x 8 ml (1P)
